

COLLECTION

Grand Hôtel

Si l'on perçoit ici un certain goût pour l'élégance « grand style » des prestigieux palaces parisiens, l'inspiration est quant à elle résolument moderne multipliant les mariages les plus audacieux du métal avec le cristal de roche, le quartz rose ou le bois d'ébène.

Here we exemplify a particular taste for the high-class elegance of prestigious Parisian hotels, the inspiration remaining resolutely modern, multiplying the most daring mélange of metal with rock crystal, pink quartz, or ebony.

VOLEVATCH

VOLEVATCH
ORFÈVRE DU BAIN

A tall, chrome-plated shower system. It features a large, round, chrome showerhead mounted on a curved arm at the top. Below it is a vertical bar with a sliding mechanism. At the bottom of the bar is a four-way diverter valve with two large, round, chrome handles. A handheld showerhead is attached to the bar via a flexible hose. The entire unit is made of polished chrome and is set against a plain white background.

A schematic diagram of a mechanical assembly. It features a horizontal pipe on the left that turns 90 degrees downward into a vertical pipe. Below the horizontal section, there is a rectangular block with a series of vertical lines underneath it, suggesting a base or support. An arrow labeled 'D' points to the top surface of this block.
